

Report Identification Number: SY-18-036

Prepared by: New York State Office of Children & Family Services

Issue Date: Jan 22, 2019

This report, prepared pursuant to section 20(5) of the Social Services Law (SSL), concerns:

- A report made to the New York Statewide Central Register of Child Abuse and Maltreatment (SCR) involving the death of a child.
- The death of a child for whom child protective services has an open case.
- The death of a child whose care and custody or custody and guardianship has been transferred to an authorized agency.
- The death of a child for whom the local department of social services has an open preventive service case.

The Office of Children and Family Services (OCFS) is mandated by section 20 of the SSL to investigate or cause for the investigation of the cause and circumstances surrounding the death, review such investigation, and prepare and issue a fatality report in regard to the categories of deaths noted above involving a child, except where a local or regional fatality review team issues a report, as authorized by law.

Such report must include: the cause of death; the identification of child protective or other services provided or actions taken regard to such child and child’s family; any extraordinary or pertinent information concerning the circumstances of the child’s death; whether the child or the child’s family received assistance, care or services from the social services district prior to the child’s death; any action or further investigation undertaken by OCFS or the social services district since the child’s death; and as appropriate, recommendations for local or state administrative or policy changes.

This report contains no information that would identify the deceased child, his or her siblings, the parent, parents, or other persons legally responsible for the child, and any members of the deceased child’s household.

By statute, this report will be forwarded to the social services district, chief county executive officer, chairperson of the local legislative body of the county where the child died and the social services district that had legal custody of the child, if different. Notice of the issuance of this report will be sent to the Speaker of the Assembly and the Temporary President of the Senate of the State of New York.

This report may **only** be disclosed to the public by OCFS pursuant to section 20(5) of the SSL. **It may be released by OCFS only after OCFS has determined that such disclosure is not contrary to the best interests of the deceased child’s siblings or other children in the household.**

OCFS’ review included an examination of actions taken by individual caseworkers and supervisors within the social services district and agencies under contract with the social services district. The observations and recommendations contained in this report reflect OCFS’ assessment and the performance of these agencies.

Date of Death: 07/24/2018
Initial Date OCFS Notified: 07/24/2018

Presenting Information

An SCR report stated that on 7/23/18, at approximately 9:30PM, the mother and father put their three children (ages 4, 3, and 2) to bed in a back bedroom. The parents then went to bed with their 1-year-old daughter in a front bedroom. At 11:48PM, emergency personnel was notified of a fire in the home. The mother, father, and 1-year-old child were able to escape the home. The father made multiple unsuccessful attempts to get into the back of the home to rescue the other children. The three oldest children were unable to escape the fire and their remains were found on 7/24/18 in the back area of the home. The father was a known user and manufacturer of methamphetamine and the mother was aware, making the fire suspicious in nature. The youngest child did not have any visible injuries.

Executive Summary

This fatality report concerns the death of three children (4, 3, and 2 years old) that occurred on 7/24/18, as a result of a fire in the family's home. There was a one-year-old female sibling who survived the fire.

Oneida County Department of Social Services (OCDSS) coordinated efforts with law enforcement upon receipt of the report. Law enforcement believed the fire started from faulty wiring in an appliance and did not believe the fire was due to illegal activity. Law enforcement found no criminality in their investigation. The family had CPS history.

On 7/23/18, at approximately 9:30PM, the mother and father put the three oldest children to bed in a back bedroom of the home. The parents went to bed with the youngest child in the bedroom at the front of the home. Shortly before midnight, the mother awoke unable to breathe due to the smoke, and she saw fire at the back of the home. The parents took the youngest child out of the house and ran to a neighbor's home to call 911. The father made attempts to rescue the rest of the children at the back of the home but was unsuccessful. EMS arrived and transported the surviving sibling to the hospital. The surviving sibling was admitted and treated for second degree burns.

OCDSS obtained the fire investigation report completed by the Rome Fire Department which stated the cause of the fire was accidental. OCDSS received the final autopsy report; for all three children, the cause of death was smoke inhalation and the manner was accidental.

Home visits were made and OCDSS contacted multiple collaterals such as law enforcement, relatives, EMS, and the pediatrician's office. Burial assistance and grief counseling services were offered to the parents. OCDSS completed required reports and safety assessments accurately and on time and conducted a thorough investigation. The case was unfounded on 12/13/18 and remained opened for services.

LDSS Response

OCDSS initiated their investigation and coordinated efforts with LE upon receipt of the SCR fatality report which was received on 7/24/18. There was an open CPS investigation, received a month prior to the fatality. There was one surviving sibling; OCDSS observed this child in the hospital the day the report was received. The CW spoke to the source of the report and completed a CPS history check. The family had CPS history and was active in an open investigation.

OCDSS attempted to speak to the parents on this day but they refused and said they would speak to the CW at a later time. The CW provided the parents with referrals for bereavement services available to them and agreed to speak the following day.

On 7/25/18, the CW spoke with LE who said they believe the fire started due to an electrical wire in the family's washer or dryer, but it would take several weeks to confirm. LE said there was no indication of foul play. The CW spoke with a few relatives on this day who stated they had no concerns for the children in their parents care and denied the parents were using drugs or alcohol.

On 7/27/18, the CW visited the parents at the home, observed the fire damage and offered burial assistance. The parents declined the offer saying the funeral home was not charging them. The parents were still not ready to discuss the night of the incident during that meeting. The CW later interviewed the parents on 8/9/18 regarding the fire. The mother said the night of the incident, she woke up unable to breathe due to the smoke and saw there was a fire in the trailer. She said she screamed at the father telling him to get up and that there was a fire and he needed to get the children out of the back of the home. The father said he tried getting to the children but was unable to due to the fire. They said they took the youngest child out, ran to neighbors and called 911 at 11:48PM. Two fire departments and EMS arrived at the scene. The surviving sibling sustained 2nd degree burns to her back and arms and spent the night in the hospital. The mother followed up with the surviving sibling's medical appointments for the burns. The CW encouraged the parents to engage in grief counseling;

however, they were not interested at that time.

OCDSS obtained records from all hospitals and the children’s pediatrician’s office. The fire department declined to release records at that time. The CW spoke with EMS present the night of the incident and said they did not speak to the parents that night as it was a chaotic scene and they were rushing to get the surviving sibling medical treatment.

On 9/18/18, the CW made a home visit and observed a crib for the surviving sibling and smoke alarms in the home. The parents stated they were aware of safe sleep guidelines.

On 12/3/18, OCDSS received the fire investigation report which stated the cause of the fire was accidental. The final autopsy report was received on 12/12/18 and listed the cause of death for all three children as smoke inhalation with the manner being accidental.

The case was unfounded on 12/13/18 and was already open for protective services due to a previous neglect petition.

Report Summary:

An SCR report alleged that SM and SF allowed SF's sister's children to move into their home. SM and SF had been evicted from the home they were residing in with their children. The children were there with no supervision. It was unknown if the children were being fed. The parents of the children had been kicked out of the trailer park and were aware their children were staying in this home and failed to take action.

Report Determination: Unfounded**Date of Determination:** 11/03/2018**Basis for Determination:**

There was no credible evidence the children were residing in the home of SM and SF. SF's sister had her own home which was appropriate for her children to reside in. The sister and her children had stayed with SM and SF for a few days to visit.

OCFS Review Results:

The adults and children were interviewed; all parties denied the paternal aunt's children lived at SM & SF's home. CW's followed regulations of notifying the regional office when 3 of the children died during this open investigation. Even though safety of the children was assessed in the first seven days of receiving the report, the seven-day safety assessment was not completed until a month after it was due.

Are there Required Actions related to the compliance issue(s)? Yes No

Issue:

Timely/Adequate Seven Day Assessment

Summary:

The seven-day safety assessment was completed one month after receiving the report.

Report Summary:

An SCR report alleged that on a regular basis, SM and SF were making and using methamphetamines at the home with the children present. The parents had a long history of drug abuse. The parents lost custody of their children due to drug use in the past. The parents moved a friend into their home to help them make methamphetamines. The friend had recently been released from prison. The SM had recently left two of the children outside the home alone while she went to a neighbor's house.

Report Determination: Unfounded**Date of Determination:** 11/28/2017**Basis for Determination:**

CW made contact with the family shortly after receiving the report. Everyone denied the allegations and the adults did not appear to be under the influence of drugs or alcohol. The state police accompanied the CW and searched the home

and property and found no evidence the parents were manufacturing methamphetamines. The parents were drug tested and tested negative for all substances.

OCFS Review Results:

OCDSS initiated their investigation promptly upon receiving the report. The CW appropriately brought law enforcement along given the seriousness of the allegations and the family's history with CPS. Father had almost completed his drug treatment for methamphetamines. CW spoke with collaterals who said the parents were doing well and they had no safety concerns for the children in their care.

Report Summary:

An SCR report alleged that on 2/15/17, SM gave birth to a child and SM tested positive for marijuana at that time. The child's toxicology was pending. SF and the three other children had unknown roles.

Report Determination: Indicated

Date of Determination: 03/13/2017

Basis for Determination:

SM admitted to using marijuana during pregnancy to help her eat and calm her. SM tested positive for marijuana throughout her pregnancy. SM was on probation at the time and a violation was filed and SM was arrested. SM was ordered to serve 6 months in jail. SF was only allowed supervised visits at the time due to concerns of drug use. As a result, the children were removed and placed with relatives.

OCFS Review Results:

CW appropriately went over safe sleep guidelines. CW obtained medical records and spoke to appropriate collaterals. CW assisted in making an appropriate plan for the child upon discharge from the hospital. CPS history was reviewed and safety assessments were completed. The children were appropriately removed as the SM was incarcerated and SF was not allowed unsupervised contact with the children. The SC went to stay with an aunt.

Report Summary:

An SCR report alleged that on 7/30/16, SM and SF were under a bridge manufacturing methamphetamine in close proximity to their three children (ages 2, 1, 9 months).

Report Determination: Indicated

Date of Determination: 08/25/2016

Basis for Determination:

LE found a large amount of methamphetamine in a car with SM and 2 of her children. SF was found with a large amount of methamphetamine on him while he was holding the youngest child. SF admitted to using methamphetamines that day. SM was drug tested and only tested positive for marijuana, which she admitted to using while not caring for the children. A neglect petition was filed and orders of protection were issued.

OCFS Review Results:

OCDSS contacted collaterals, obtained records and information from LE, the parents, and family. OCDSS conducted a thorough investigation and made the appropriate determination.

Report Summary:

An SCR report alleged that on 6/13/15, SM and SF failed to supervise their two oldest children in the home. Both children exited the home and were outside for up to a half hour and they were not wearing any clothes. The children were not injured or harmed. The youngest child had an unknown role.

Report Determination: Indicated

Date of Determination: 08/24/2016

Basis for Determination:

LE arrested both parents for endangering the welfare of a child. The parents admitted to falling asleep while they were supposed to be supervising the children. SF's probation officer drug tested him and he tested positive for methamphetamines and marijuana. SM admitted to using marijuana but not while caring for the children. The parents were later found with a large quantity of methamphetamines and tools to produce methamphetamines.

OCFS Review Results:

The CW appropriately filed a neglect petition, spoke to collaterals, made several home visits, conducted a thorough investigation and made the appropriate determination.

Report Summary:
 An SCR report alleged the SM and SF abused drugs and alcohol in their home while caring for their three children. The parents had friends come over and drank and abused drugs with them. When the parents were impaired, they did not supervise the children. The children were not bathed regularly and the home was unclean with dirty dishes and old food all over.

Report Determination: Unfounded **Date of Determination:** 04/27/2016

**Basis for Determination:**

CW made unannounced home visits and observed the home to be clean and free of hazards. CW did not observe the parents to be under the influence of drugs or alcohol during any home visit. Home visits were made with SF's probation officer and there were no concerns for drugs or alcohol. The probation officer said the SF had always been cooperative.

OCFS Review Results:

CW interviewed collaterals who denied having concerns for the children in the parents care. CW provided information and reviewed safe sleep with the parents. Parents denied co-sleeping with the child and showed appropriate sleep accommodations for the child. CW obtained children's medical information and all CHN were up to date on wellness checks and immunizations.

CPS - Investigative History More Than Three Years Prior to the Fatality

The mother and father had three CPS cases against them more than three years prior to the fatality. Between 2013 and 2015 there were three cases with allegations of IG, PD/AM, and IFCS; all were unfounded.

Known CPS History Outside of NYS

There was no known CPS history outside of NYS.

Preventive Services History

This case was opened on 8/9/16 due to an indicated case against the parents for their drug use. The parents each served jail time during this case and the children were placed with relatives. While the children were in placement, the parents completed mental health evaluations, drug/alcohol evaluations, met with a parent aide, and engaged in parenting classes. The parents completed their substance abuse programs and the children were returned to their care in August 2017. There continues to be an order of supervision in place until February 2019.
